ScriptAbility Patient Access Stack

Building Blocks For Accessible Care | **Trusted by 13,000+ Pharmacies | 25+ Years**

ScriptAbility's Patient Access Stack is a unified framework of APIs designed to make healthcare accessibility seamless. It equips pharmacies with tools for accessible labels, spoken instructions, and multilingual support.

Our Application Suite

SIG Normalizer · *Management* — Standardize prescription instructions with intelligent normalization. Transform inconsistent pharmacy directions into clear, patient-friendly instructions. • Consistent medication instructions • Reduces patient confusion • Improves adherence

MedCast · *Analytics & Education* — Generate medical podcasts and educational content automatically. Turn complex medication information into accessible audio formats. • Audio instructions for visually impaired • Multilingual support • On-demand education

Pill Identifier · *Patient Care* — Identify medications by appearance instantly. Help patients verify their medications through image analysis. • Visual verification • Prevent medication errors • Enhanced patient safety

NDC Analysis · *Analytics* — Get instant medication physical descriptions from NDC codes. Quick access to pill appearance, shape, color, and imprint details for easy identification.

Why Choose ScriptAbility?

HIPAA Compliant — Enterprise-grade security with full HIPAA compliance to protect patient data and ensure regulatory adherence.

Mobile First — Access your pharmacy management tools anywhere with our responsive, mobile-optimized applications.

⚙ **Easy Integration** — Seamlessly integrate with existing pharmacy systems, EHRs, and third-party applications.

24/7 Support — Round-the-clock technical support from our team of pharmacy software experts.

What Our Customers Say

> *"ScriptAbility transformed our pharmacy operations. The prescription management system alone saved us 3 hours daily."* — **Dr. Sarah Johnson**, *Johnson's Pharmacy*
>
> *"Implementation was smooth and the support team is outstanding. Our ROI was evident within the first month."* — **Lisa Rodriguez**, *Community Care Pharmacy*
